1 2016

Summary

The Netherlands regularly reports hate crime data to ODIHR. Police and prosecution statistics are published annually. A victimization survey is conducted by the Central Bureau of Statistics every two years and the results are published here.

A National Co-ordinator against Discrimination and Racism, appointed in October 2021, is tasked with ensuring a comprehensive approach to countering discrimination and hate crime, in co-operation with civil society organizations (CSOs). A State Commission against Discrimination and Racism is tasked with conducting research into discrimination and racism, including hate crimes.

The Ministry of the Interior (MoI) regularly consults CSOs on anti-discrimination policies. In particular, the MoI has entered into a formal co-operation agreement with the CSO Discriminatie.nl, which monitors discrimination in the Netherlands.

ODIHR's Key Observation

ODIHR observes that the Netherlands have not reported on cases of hate crimes separately from cases of hate speech and/or discrimination.

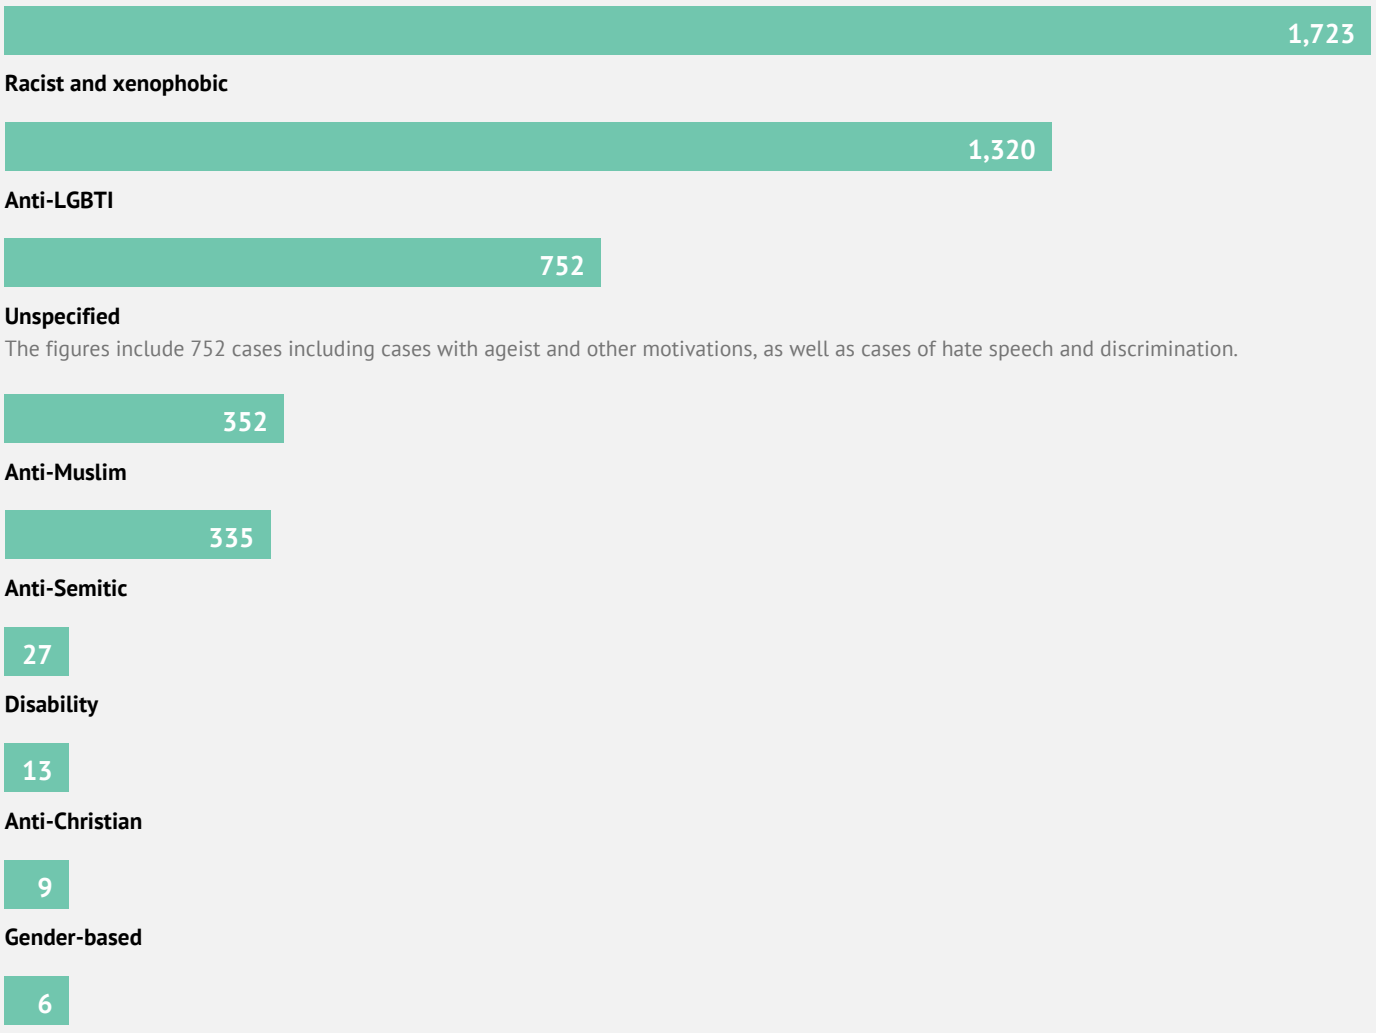
Official Data

Figures reported to ODIHR and presented here include hate speech and discrimination offences (or "basic forms of discrimination") as well as hate crimes ("common offences with a discriminatory motive"). Where multiple biases are registered in an offence, each of them is reported individually in the breakdown below.

Year	Hate crimes recorded by police	Prosecuted	Sentenced
2016	4,376	0	0

Police data by bias motivation

The police figures include hate speech incidents, data reported by local anti-discrimination services, and online hate speech incidents, which could not be separated.



Police data by type of crime

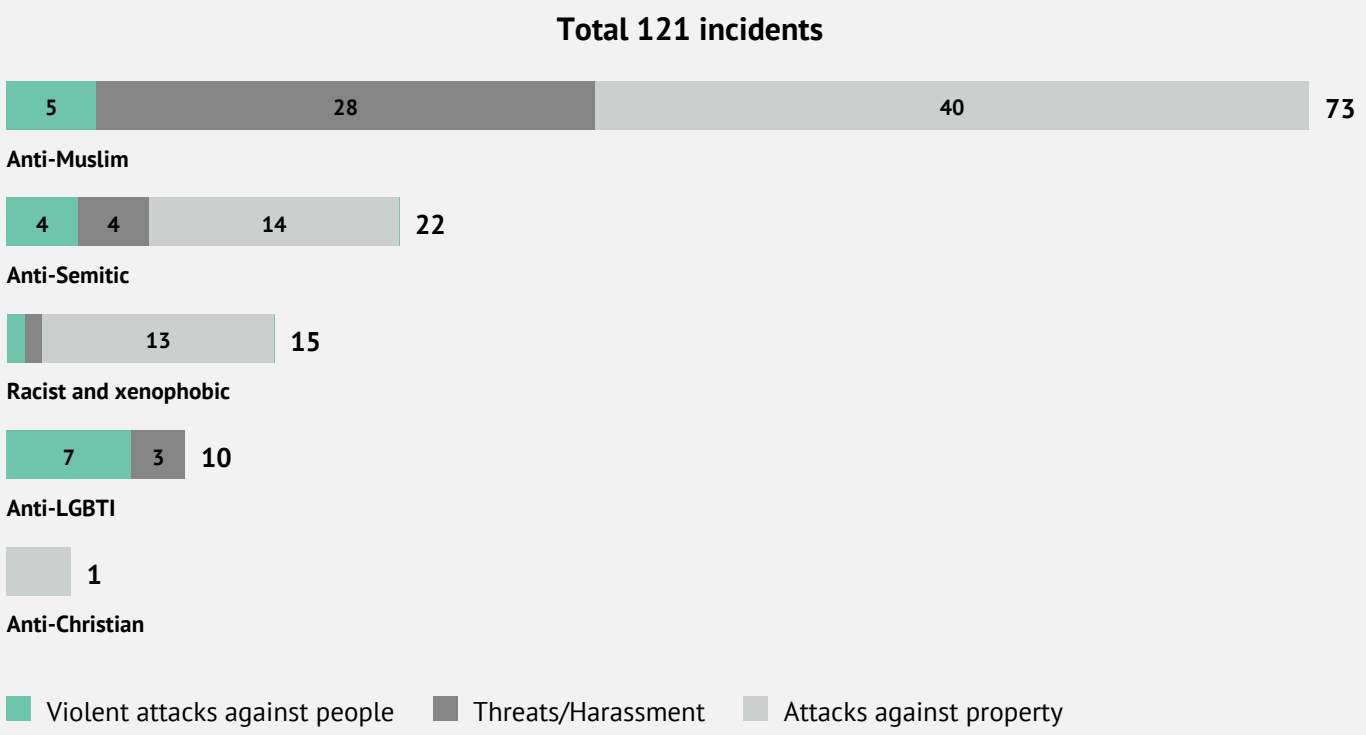
The police figures include hate speech incidents, data reported by local anti-discrimination services, and online hate speech incidents, which could not be separated.

Unspecified crime type

National Developments

The figures include 752 cases including cases with ageist and other motivations, as well as cases of hate speech and discrimination.

Incidents reported by civil society



Please note that the total number of incidents may be lower than the sum of incidents presented in the breakdown chart above, as some incidents involve multiple bias motivations.

Turkish Forum Netherlands and SETA reported descriptions of incidents as well as statistical data. This explains the discrepancy between the graphic above and the incidents included below.
