Summary

Switzerland regularly reports hate crime data to ODIHR. Switzerland's Criminal Code contains no hate crime provision (see the link to related legislation, below) and hate crimes are addressed under anti-discrimination criminal provisions. The Federal Commission against Racism partners with the association 'humanrights.ch' in the Counselling Network for Victims of Racism, which publishes [annual analytical reports](#) on hate crime.

ODIHR's Key Observation

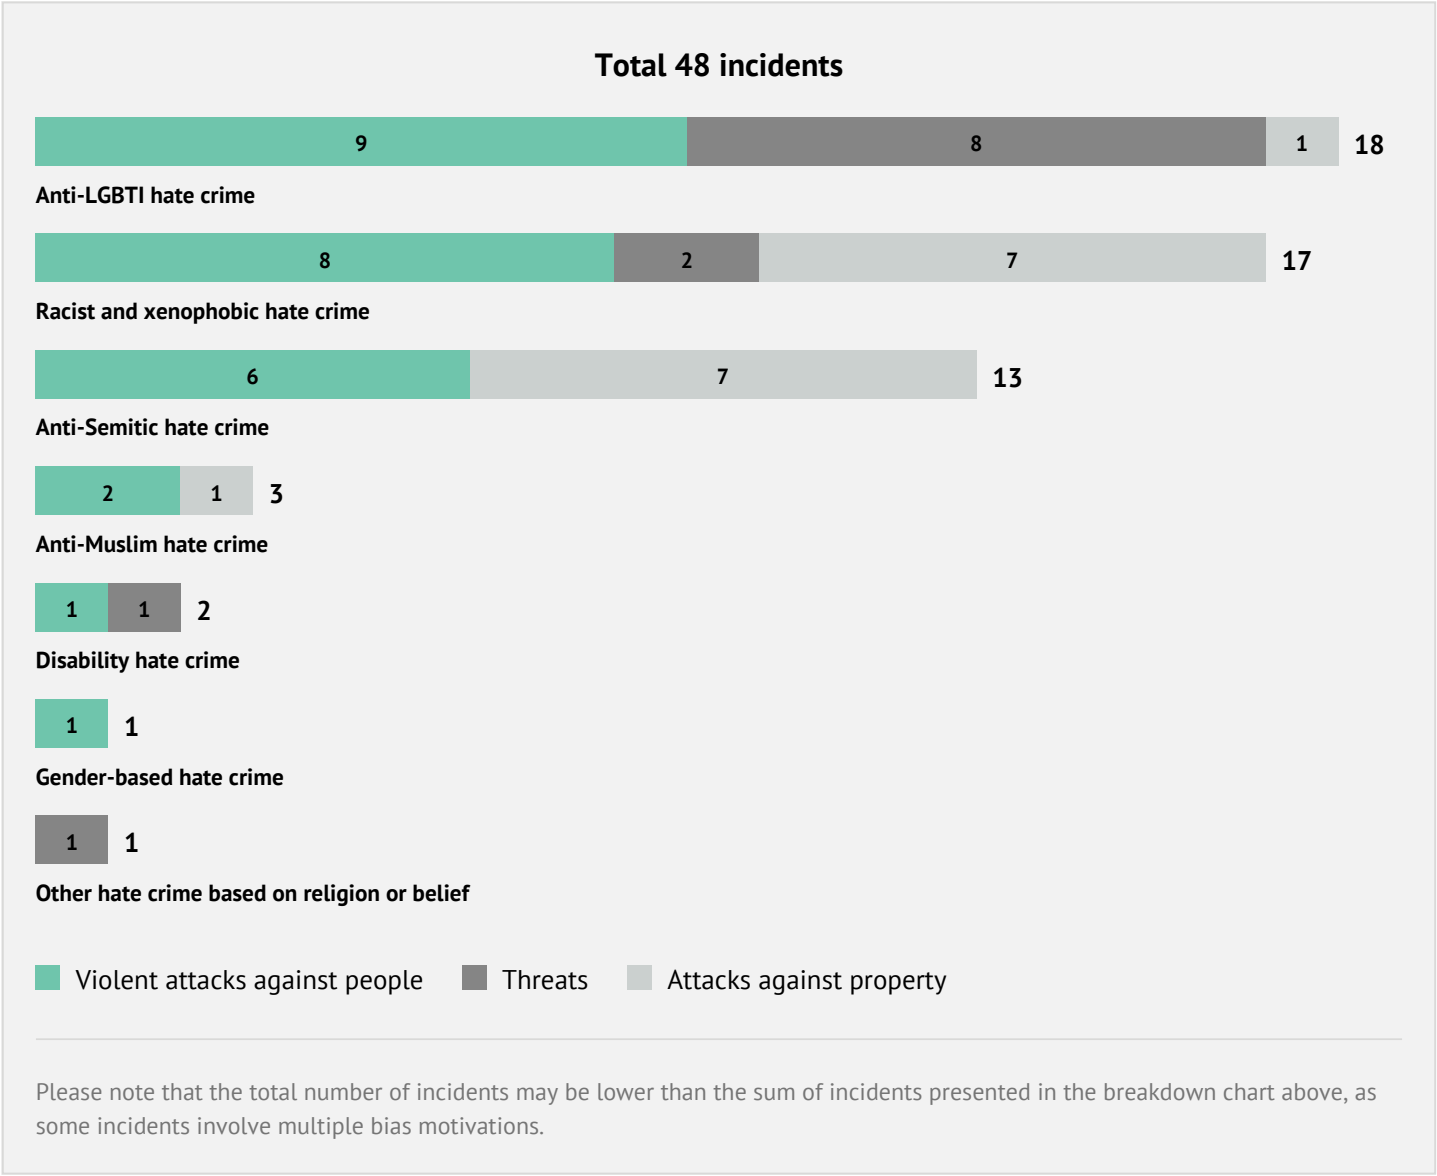

ODIHR observes that Switzerland has not reported on hate crimes separately from cases of hate speech or discrimination.

Official Data

Figures consist of hate crimes committed in public, crimes of incitement to hatred and crimes involving discrimination. As such, many of incidents listed here fall outside of the OSCE's hate crime definition. A breakdown of sentencing judgments by bias motivation was reported to ODIHR.
