ODIHR's Key Observation

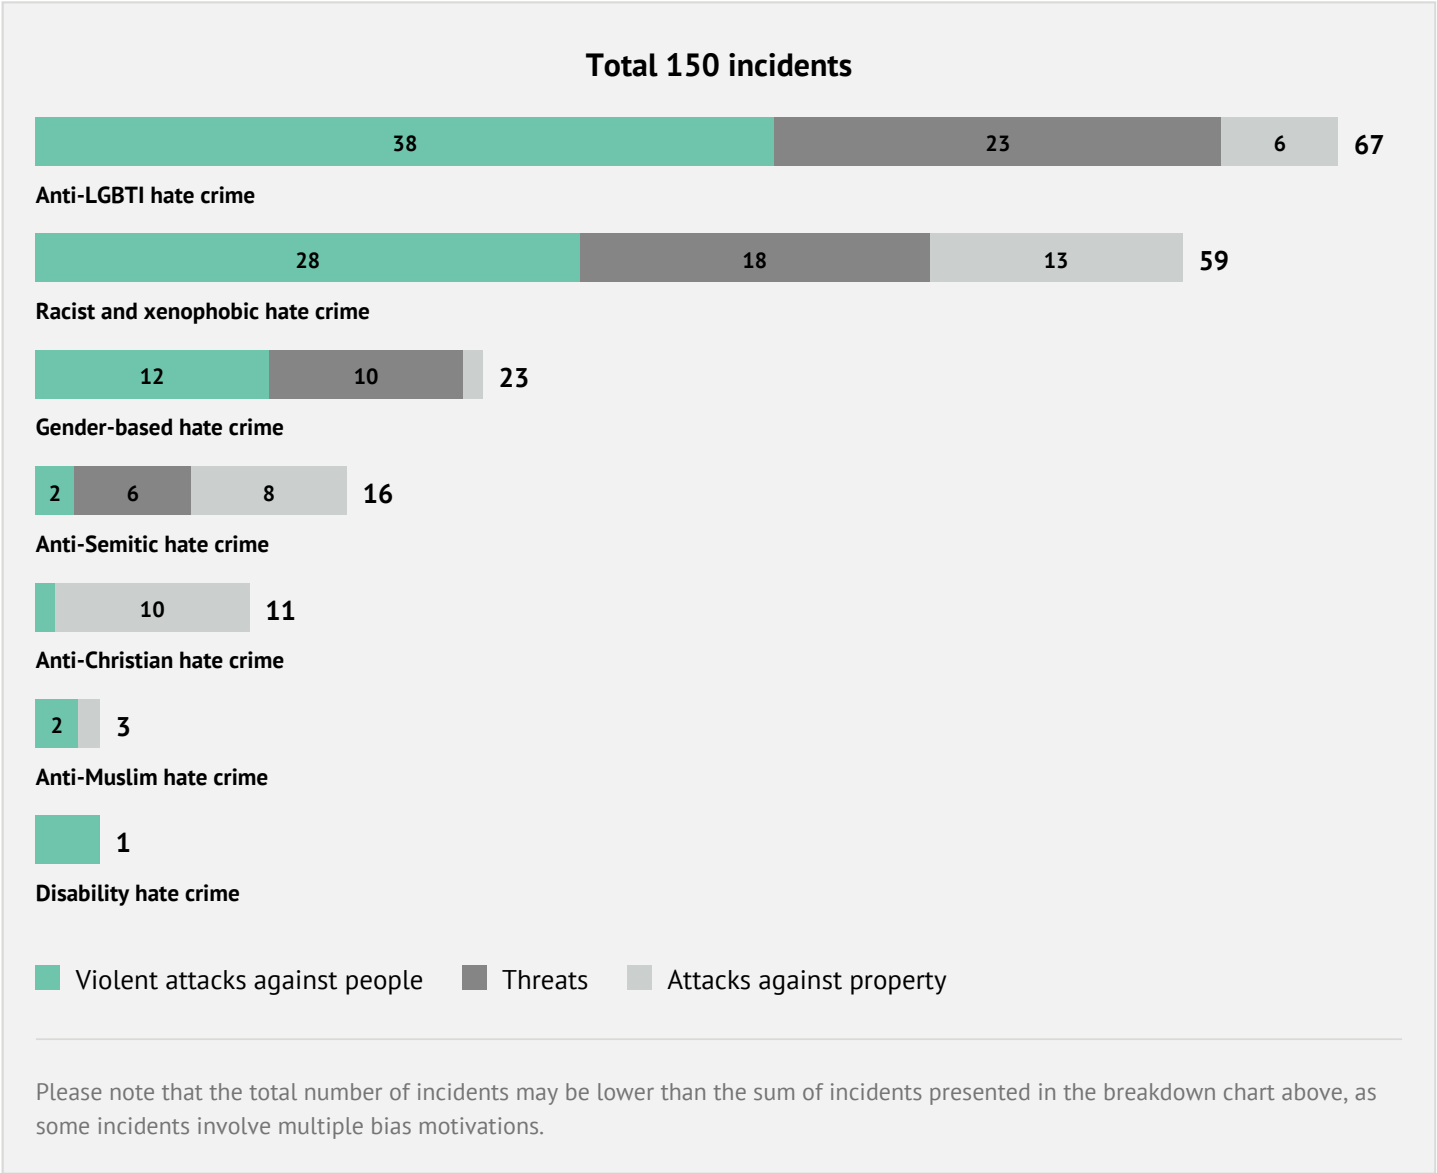

ODIHR recognizes Switzerland's efforts to report hate crime information to ODIHR. However, it observes that Switzerland has not reported statistics on hate crimes to ODIHR. In the absence of the official statistics, ODIHR is not able to provide further observations on hate crime data collection in Switzerland. In addition, ODIHR observes that Switzerland would benefit from reviewing the existing legal framework to ensure that bias motivations are effectively acknowledged and appropriate penalties can be imposed on the perpetrators.
