Summary

Croatia regularly reports hate crime data to ODIHR.

Since 2006, Croatia has implemented ODIHR's Law Enforcement Outreach Programme (LEOP) followed by the updated Training Against Hate Crime for Law Enforcement (TAHCLE) programme.

In 2021, the government adopted an updated inter-agency "Protocol for Procedure in Cases of Hate Crime", establishing state authorities' responsibilities in addressing hate crime and revised the responsibilities of the dedicated Working Group for monitoring hate crimes. In 2021, the Working Group participated in ODIHR's [diagnostic workshop](#) to assess national structures and services for hate crime victim support, resulting in a set of ODIHR recommendations to the relevant state authorities. Data on hate crimes are [regularly published](#) by the Office for Human Rights and the Rights of National Minorities (OHRNRM).

ODIHR's Key Observation

ODIHR observes that Croatia has not made public hate crime data disaggregated by bias motivation.

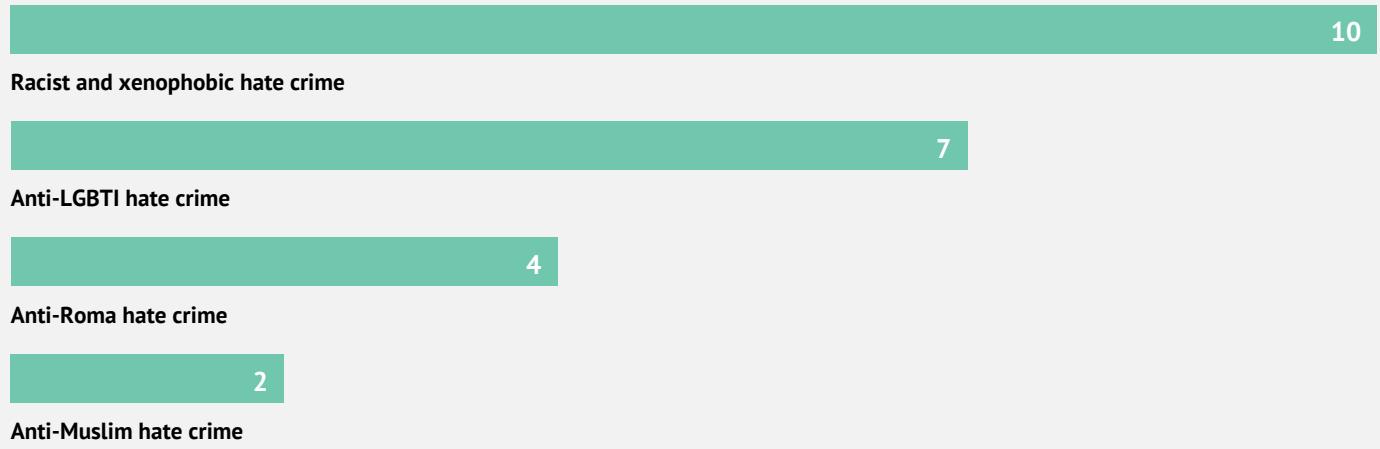

Official Data

The police figure includes two incidents committed with a "regional affiliation" motive, which are not sanctioned by the criminal code and therefore not included in breakdown below. The reported prosecution figures include cases initiated during the previous years. The prosecuted cases include only those where an indictment was filed – unlike in previous years, which explains the year-to-year drop in number.

Year	Hate crimes recorded by police	Prosecuted	Sentenced
2017	25	16	12

Police data by bias motivation

The police numbers represent the number of recorded offences. One incident can involve more than one offence.

Police data by type of crime

National Developments

The Criminal Code provision defining hate crimes was amended to include language as a protected characteristic.

The Action Plan for Implementation of the National Plan to Combat Discrimination 2017-2019 was adopted by the Government, which identifies a number of priority areas in addressing hate crimes: education and public awareness raising initiatives focusing on hate crimes against national minorities and LGBT people, and improvements to hate crime data collection.

Incidents reported by civil society
