### Summary

Estonia reported hate crime data to ODIHR for the 2022 Hate Crime Report.

The Ministry of Justice is responsible for collecting hate crime data. The main strategy that addresses hate crime is the "Internal security development plan 2020-2030 (Siseturvalisuse arengukava 2020–2030)."

The Estonian Human Rights Centre, a major civil society organization (CSO) working on hate crimes in Estonia, is engaged in raising awareness, co-operation between CSOs and the state, and lobbying for more effective laws and policies.

In 2017, ODIHR organized a workshop on understanding and improving hate crime recording and data collection and also implemented its Training against Hate Crimes for Law Enforcement (TAHCLE) programme in Estonia. In 2022, ODIHR organized an online workshop to assess national structures and services for hate crime victim support in Estonia, which resulted in a number of recommendations issued to the Estonian authorities.

### ODIHR's Key Observation

ODIHR recognizes Estonia's efforts to report hate crime information and data to ODIHR. However, based on the available information, ODIHR observes that the law enforcement agencies of Estonia have not recorded the bias motivations behind hate crimes, and that Estonia has not reported data on hate crimes recorded by the prosecution and judiciary. In addition, ODIHR observes that Estonia would benefit from reviewing its existing legal framework in order to ensure that bias motivations can be effectively acknowledged and appropriate penalties can be imposed on the perpetrators.
