### ODIHR's Key Observation

ODIHR recognizes Switzerland's efforts to report hate crime information and data to ODIHR. However, based on the available information, it observes that Switzerland's recording does not sufficiently distinguish hate crimes from other crimes, and that law enforcement agencies do not record the bias motivations of hate crimes. In addition, ODIHR observes that Switzerland would benefit from reviewing the existing legal framework to ensure that bias motivations are effectively acknowledged and appropriate penalties can be imposed on the perpetrators.

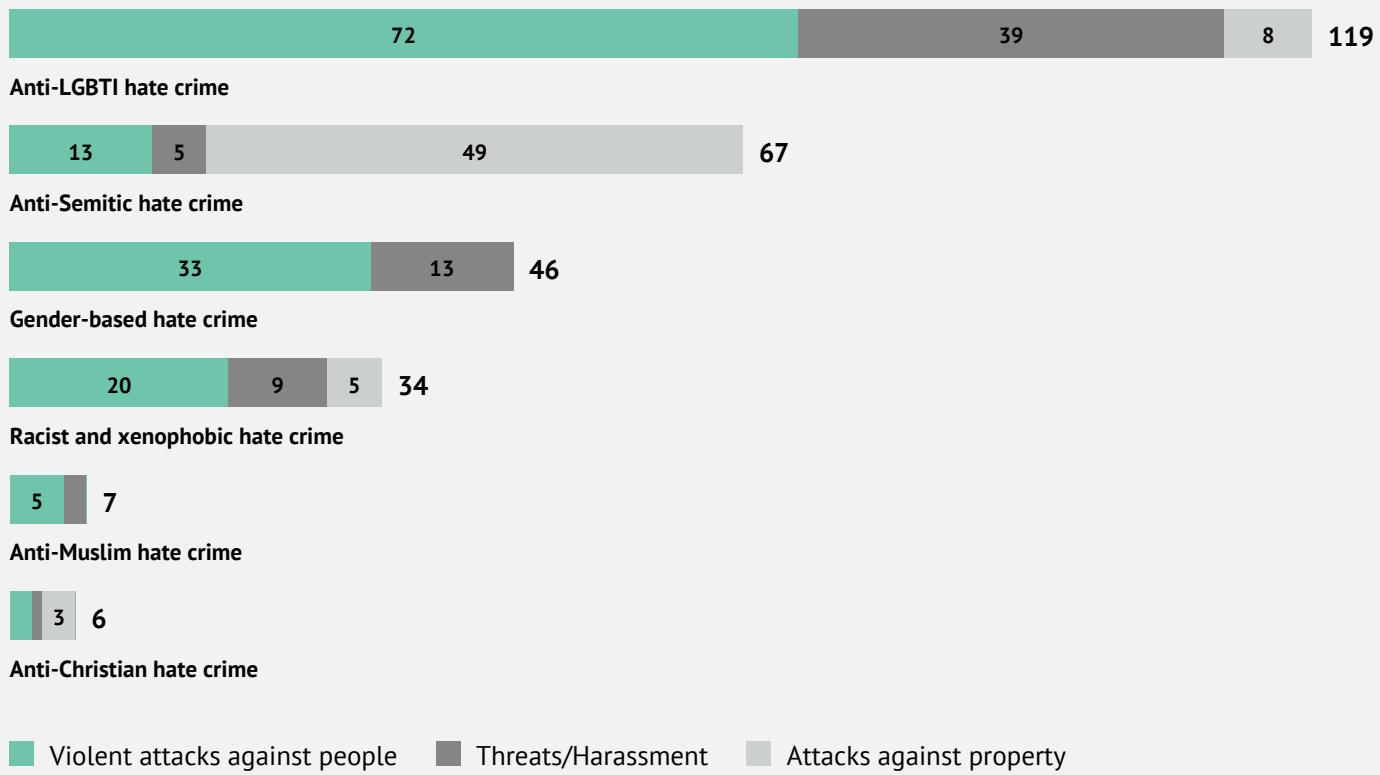

## Official Data

The above figures consist of offences registered by police as well as sentences relating to Article 261bis of the Swiss Criminal Code (Discrimination and Incitement to Hatred). Therefore, the numbers include offences that fall outside the OSCE's hate crime definition. A breakdown of sentencing judgments by bias motivation was reported to ODIHR. Disaggregation of police data is not available.

Year	Hate crimes recorded by police	Prosecuted	Sentenced
2023	401	not available	88
